Anker Celebrates Intel Semi-Finalist David Wu

Legislator Sarah Anker with Intel Semi Finalist David Wu

HAUPPAUGE, NY – Suffolk County Legislator Sarah Anker recently awarded Comsewogue High School senior David Wu with a proclamation for his accomplishment of being named an Intel Semi Finalist.

“I congratulate David on this major accomplishment of being an Intel Semi Finalist,” said Legislator Anker, “I know that Comsewogue School District, his teachers, peers and family are extremely proud of him.”

“I have worked with David for the past four years and I found him to be an extremely dedicated and focused young man. The Comsewogue community is extremely proud of David’s accomplishments,” said Comsewogue teacher and Intel advisor Elizabeth Casey.

David Wu’s research project involved testing the validity of the Standard Model of particle physics. To complete his research, David spent close to thirty hours a week reading scientific papers on computer programming language and wrote a computer simulation to test his research theory. He worked with senior physicist and mentor Dr. William Morse from the Brookhaven National Lab who helped direct and guide him during his research.
