Legislator Martinez Announces Launch of Her Mobile Office Unit

Ninth District Suffolk County Legislator Monica R. Martinez in collaboration with the family of the Central Islip Public Library announces the launching of her mobile office unit.

“I am so delighted to fulfill another one of my promises to the residents of the 9th District, by providing them with an office located in the heart of the community. The majority of residents are hardworking individuals and students which at times, makes it difficult for them to visit during regular office hours. It is with them in mind, that I came to this decision to open a mobile office unit,” Legislator Martinez said.

The Mobile Office Unit will open on March 1, 2014 and will continue to have open office hours the first Saturday of each month thereafter. Legislator Martinez will be available for constituents at the Central Islip Public Library from 10am to 12pm. The Ninth Legislative District Office urges constituents of Central Islip, Brentwood, and North Bay Shore to take advantage of this great opportunity.

Legislator Martinez added, “I look forward to helping the residents of this great district by bringing public amenities closer to home and making myself readily available for them.”
