Legislator Monica R. Martinez Attends Grand Opening of Community Health Center in Brentwood under HRHCARE

(Brentwood, NY): Legislator Monica R. Martinez, County Executive Steve Bellone, and Suffolk County Chief Executive Commissioner of Health, Dr. Linda Mermelstein, attended the grand opening of the Hudson River HealthCare (HRHCare) facility in Brentwood on September 17, 2015. The Brentwood location is HRHCare's fourteenth facility to open on Long Island and is expected to serve 8,000 total residents. The organization has made efforts to bring high-quality, affordable healthcare services to the region and creating 55 new local jobs.

"I am always happy to support organizations like HRHCare as they provide important services to historically underserved populations. Families in Brentwood, Central Islip and North Bay Shore need access to quality healthcare at an affordable rate and HRHCare will play a major role in providing it," stated Legislator Martinez.

Founded 40 years ago, HRHCare has quickly become the single largest provider of community health services throughout New York State. HRHCare is a nonprofit Federally Qualified Health Center that employs more than 900 professionals and serves 140,000 patients at sites of care throughout the Hudson Valley and Suffolk County.
