“Tonight was a very unique opportunity, as it is not every day that I get to meet with all of the local chambers in one room,” said McCaffrey. “Although each chamber has its own set of ideas and challenges, there is a tremendous amount that they have in common. To improve a community as large and diverse as the Town of Babylon, we need to bring together groups like these as often as possible.”

In addition to enjoying an informative night of networking, those attending the event also participated in a tour of Southside Hospital’s state-of-the-art facility. Participants learned about the hospital’s history, its many great strides in recent years, along with its plans to expand and improve.
