

April 20, 2015

Dear Editor,

It's that time of year again...my office is accepting applications from high school and college students (aged 16+) interested in participating in the 18th Legislative District's annual "Lead by Example" summer internship program!

"Lead by Example" is an innovative initiative coordinated through my office that seeks to connect students with local businesses for a six-week summer internship experience. This program has successfully made more than 50 matches over the past 3 years, and gives students from all backgrounds opportunities to learn, network and obtain experience in a real-life work environment. Time and again, these **unpaid** internship opportunities have proven to be successful in helping participants cultivate the necessary work and communication skills they will need in the future.

This year's program will run from July 6th to August 14th. If you are interested in applying or have any questions, please contact my office as soon as possible at 631-854-4500.

Sincerely,

William R. Spencer, M.D.
Suffolk County Legislator
18th Legislative District
