When Thunder Roars, Go Indoors!

Each year, more than 400 people are struck by lightning in the United States. On average, between 55 and 60 people are killed, and hundreds of others suffer long-term or permanent disabilities. Most of these tragedies can be avoided with a few simple precautions. Especially during the summer months, when thunderstorms often come on suddenly, it is imperative that you know how to stay safe in severe weather.

Volunteer Opportunities Available for Teens at the Huntington Light House Music Festival

The Huntington Lighthouse Preservation Society believes in, trusts, and celebrates young people. There are many opportunities for our youth to volunteer and earn community service credit. They can assist on the launch boats, work tours, clean up crews, set up crew, break down crew and of course participate in the "Teens on the Water" program for the annual Lighthouse Music Fest.

Huntington Residents Come Together With 2nd Precinct Officers for National Night Out Against Crime!

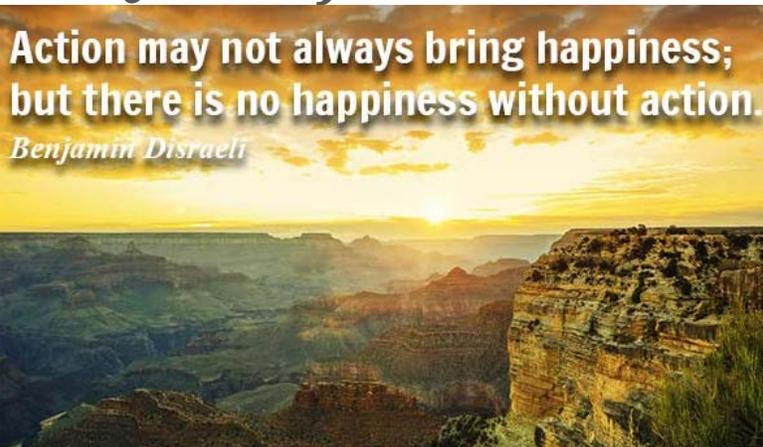

Legislator Spencer speaks with officers at National Night Out

Residents during the event

Huntington residents showed their community spirit last week for National Night Out at Manor Field Park in Huntington Station. The annual event, which is held in communities across the United States, is designed to increase awareness and garner support for anti-crime efforts by fostering and enhancing relationships between the public and law enforcement. "It was great to see a strong turn-out! In-line with the purpose of the event, the residents and police officers from the 2nd Precinct used the evening as an opportunity to build upon their partnership in making our neighborhoods safer. I believe that it is these relationships that make our communities thrive!" said Legislator Spencer
