Introduction

In 2004, 2005 and 2006, the Suffolk County Department of Planning undertook the preparation of four Master Lists consisting of properties proposed for acquisition that were identified throughout the County as important for the preservation of open space. Each Master List was approved by Legislative Resolution Nos. 621-2004 (Master List I); 877-2005 (Master List II); 47-2006 (Master List III); and 796-2006 (Master List IV). Each resolution directed Suffolk County to initiate planning steps which includes such actions as: the commencing of negotiations; conducting appraisals, surveys, title searches, and environmental audits; and initiating a written contract with the owner(s) of the property. Acquisition would be subject to final approval by the County Legislature and County Executive. Each site/assemblage area is comprised of one or more individual parcels identified by its Suffolk County Tax Map (SCTM) number.

Environmentally sensitive lands were identified which included sites that possess but are not limited to such characteristics as: tidal and/or freshwater wetlands and their buffer areas; lands within the watershed of a stream or river corridor or lake system; lands within a Special Groundwater Protection Area (SGPA); lands consisting of natural vegetation including endangered, threatened and/or species of special concern; NYS Natural Heritage Program Elements; lands located adjacent to a waterbody and/or contain a unique geological feature; and lands determined by the Planning Department to be necessary for maintaining the quality of surface and groundwater in Suffolk County. An important consideration was the identification of those sites that were located adjacent to other County holdings. A strong emphasis was placed on consolidation of County holdings where a majority of County ownership exists. Certain parcels located within old filed map areas, where Suffolk County has amassed numerous small sized parcels, primarily through tax lien procedures, were identified for acquisition to complement our park holdings in these areas. These sites as well as some others were considered for its value as an environmentally sensitive area and/or as recreationally important parkland.

During the last eleven years from 2004 to December 2012, the County has acquired a significant number of properties totaling 7,658 acres for open space preservation, farmland protection and active parkland purposes, the most of which has been dedicated for parkland purposes, which totals 4,511 acres. Of that amount, 1,411 acres of land were acquired that were identified on the four Master Lists, or about 31% of the acreage was acquired by Suffolk County for open space preservation/active recreation. The County has utilized funds approved by County Legislative Resolutions and Countywide-approved referendums. At one point, a total of ten programs were providing the funding to acquire properties on the four Master Lists in addition to other Planning Steps Resolutions approved by the Legislature, including the 50,000 acre Pine Barrens Core Area.

In addition, about 1,187 acres of land identified on the Master Lists have been preserved primarily by other municipalities, mostly on the town level. So, as of December 2012, a total of 2,598 acres on the Master Lists have been preserved for open space preservation or active recreational purposes.

In June 2007, the County Department of Planning prepared a report entitled, *Open Space Acquisition Policy Plan for Suffolk County.* In the report, the County's Open Space policies and goals were clearly defined. As part of that plan, a rating system was designed to evaluate proposed open space acquisition properties. Three rating forms were prepared corresponding to the open space goals of: natural resource protection; farmland preservation; and active recreation, hamlet park, and/or cultural park uses. These three rating systems were developed to uniformly evaluate proposed acquisitions in the initial stages of the acquisition process, ie. the Planning Steps stage.

In 2008, the Department of Planning was directed by Legislative Resolution No. 675-2008 to amend the three rating forms to provide points for land acquisitions in Census Designated Places that have a density level of 1,000 persons per square mile or greater. The forms were updated on September 8, 2008 to reflect that directive and are the rating forms that are utilized to the present day.

In 2012, Legislative Resolution No. 298-2012 directed the Department of Economic Development and Planning, Division of Planning and Environment, to review the County's Master Lists and make recommendations as to which parcels should be removed from the lists, ie., update the lists. Accordingly, the Division of Planning and Environment has prepared the following information to answer and update the Master Lists for future open space preservation acquisitions. This report identifies all the parcels listed on Master Lists I through IV and has indicated, by parcel, those that should be removed or retained. Parcels that are recommended to be removed from the list include those that have been, to date: 1) acquired or in the process of being acquired by the County for park/open space purposes; 2) acquired by another local municipality or not-for-profit for park/open space purposes;3) protected by a permanent conservation easement generally owned either by a municipality or a not-for-profit organization; 4) improved/developed; or 5) due to the increased development in the immediate area of a property(s), it has been recommended to be removed from the lists. The remaining parcels were identified to be retained on the Master Lists for future consideration for open space preservation vis a vis County acquisition.

The next steps outlined in Resolution No. 298-2012 directed the Department of Economic Development and Planning, Division of Planning and Environment, to establish an advisory priority ranking system and create a priority list based on the application of an established priority ranking system. This report provides a rating of each of the proposed acquisition sites or assemblages. There were 138 sites/assemblages totaling 1,695 parcels and 7,733.9 acres identified in Master Lists I through IV. We utilized the existing rating system prepared as part of the *Open Space Acquisition Policy Plan for Suffolk County,* as amended and updated on September 8, 2008. Utilization of this rating system will enable the County to consistently review all parcels in a uniform fashion that have been legislatively approved for Planning Steps since 2008, and now, all open space properties on Master Lists I through IV, as well.

This report provides a series of aerial photographic maps that identifies each open space site/assemblage listed in Master Lists I through IV. Each individual parcel or parcels that comprise a site/assemblage are outlined on these maps. County-owned Parks and Open Space properties are also identified as well as other municipally owned lands. The area located within

the white dotted line is to be excluded from the site to be acquired. Usually this cut out area is where there is a structure or existing use that would not to be considered as part of the parcel that we are proposing to acquire. The solid white lines on the map indicate all Suffolk County Real Property Tax Map parcel boundaries used with permission of the Suffolk County Real Property Tax Service Agency. The 2010 aerial photographs have been used with permission from the New York State Office of Technology.

In addition, included is a large scale map that identified areas where the County has acquired other open space properties as part of a larger assemblage area. These larger assemblage areas were considered for the rating of sites that included County-owned properties in the immediate area of certain proposed acquisition parcels or within a watershed or wetland area. The result is to create a large, mostly or entirely, contiguous area of protected open space similar to the larger County Park holdings that were acquired as one large property in the 1960s and 1970s. The Assemblage Rating reflects the total acreage of parcels to be retained on the Master Lists plus the existing County-owned Parkland within the entire assemblage area. All parcels identified within an assemblage that are proposed for acquisition (ie. to be retained on the Master Lists) are given the same rating as if it is rated as one large parcel. This gives an area with many small parcels the equivalency of a one large parcel, making them more equitable to compare.

The Suffolk County Open Space Rating System for Natural Environments, the form that was utilized to rate these sites/assemblages, is attached. The information ascertained to complete the rating form includes:

Natural Resource Characteristics such as: 1) Wetlands and Buffer Areas such as: the New York State Department of Environmental Conservation tidal and freshwater wetlands data, the US Department of Agriculture Soil Survey of Suffolk County, 2) Groundwater Resources including the Long Island Regional Planning Board Special Groundwater Protection Area Plan boundaries, the Central Pine Barrens Joint Planning and Policy Commission Pine Barrens boundaries, the Suffolk County Department of Health Services Groundwater Management Zones boundaries, 3) Natural Habitat data from Federal and New York State on Endangered, Threatened, and Species of Special Concern, NYS Natural Heritage Program data and the NYS Protected Native Plant Species data as well as analyzing habitat diversity of the site;

Physical Characteristics such as: Geological Landforms and Boundaries such as location in or adjacent to a waterbody(s), unique geological land forms, and location within the 100-year floodplain Federal Insurance Rate Maps V and A Zones, Size of property; and Location adjacent to other County Parkland or other protected parklands owned by a municipality or private open space, within the NYS Wild, Scenic and Recreational Rivers corridor, identified within an estuary program plan for environmental protection, access to a shoreline, greenbelt or special view;

Stewardship Management Agreement: Consideration of possible stewardship management agreements were not ascertained on each parcel listed on the Master Lists at this time. As is the procedure in place by the Division of Real Property Acquisition and Management, the local municipality is contacted at the time that Planning Steps or when

negotiations are initiated to ascertain whether they would be interested in partnering with the County on the cost of the acquisition.

A data sheet is provided after each aerial photograph of each site/assemblage. It provides a list of the tax map numbers of each parcel within each proposed acquisition site that were on Master Lists I through IV; the owner of each parcel; which Master List the parcel was listed; its acreage and whether it is recommended to be retained for future acquisition or eliminated from the Master Lists. An explanation of its elimination from the Master Lists is also provided in a comment section. If only part of a parcel is recommended for acquisition, then the acreage listed for that parcel reflects only that part of the property. The total acreage and number of parcels on the original Master Lists comprising each site/assemblage is provided as well as the total acreage and total number of parcels that are recommended to be retained on the Master Lists. The rating based on the rating sheet tabulation of each site/assemblage is provided. The maximum number for a total score is 100 points.

A list of parcels by site/assemblage area is provided in a summary table at the end of the report ranking the site/assemblage area. In summary, there are 86 proposed open space sites/assemblages identified for future open space acquisition. The total number of parcels to be retained on the Master Lists is 1,040, which represents a total of 4,649.8 acres that are recommended for future open space acquisitions.

Name_____ Introductory Resolution No. _____

SUFFOLK COUNTY OPEN SPACE RATING SYSTEM FOR NATURAL ENVIRONMENTS

This rating system for natural environments is designed to clarify the recommendation and acquisition process for parcels of land that might be acquired with funds from the New Drinking Water Protection Program (effective December 1, 2007), the Multifaceted Land Preservation Program, the Environmental Legacy Fund, or any of the other County open space programs that are designed for the protection of natural environments.

NEW DRINKING WATER PROTECTION PROGRAM

If the property is being recommended for acquisition under the **New Drinking Water Protection Program (effective December 1, 2007)**, then it must meet at least one of the following criteria as per Section C12-2(A)(1):

a.	Freshwater/tidal wetlands and buffer lands for same	☐
b.	Lands within the watershed of a coastal stream as determined by a reasonable planning or hydrological study	☐
c.	Any tract of land located fully or partially within a statutorily designated Special Groundwater Protection Area	☐
d.	Lands determined by the County Department of Planning to be necessary for maintaining the quality of surface or groundwater in Suffolk County	☐
e.	Lands identified by the South Shore Estuary Reserve (SSER), Peconic Estuary Program (PEP), and/or the Long Island Sound Comprehensive Conservation and Management Plan (LICMP) as needed to protect coastal water resources	☐
g.	Open Space	☐
h.	Wetlands, woodlands, pine barrens, and other lands which are suitable only for passive recreational use	☐

If YES, then go to the next page.

MULTIFACETED LAND PRESERVATION PROGRAM

Property is being recommended for acquisition under the following component of the **Multifaceted Land Preservation Program:**

• pursuant to the Land Preservation Partnership Program (Resolution No. 751-1997 passive recreation)	☐
• pursuant to the traditional (1986) Open Space Preservation Program	☐
• for environmentally sensitive land acquisition	☐
• for watershed/estuary protection	☐
• for drinking water protection purposes	☐

If YES, then go to the next page.

OTHER OPEN SPACE PROGRAMS:

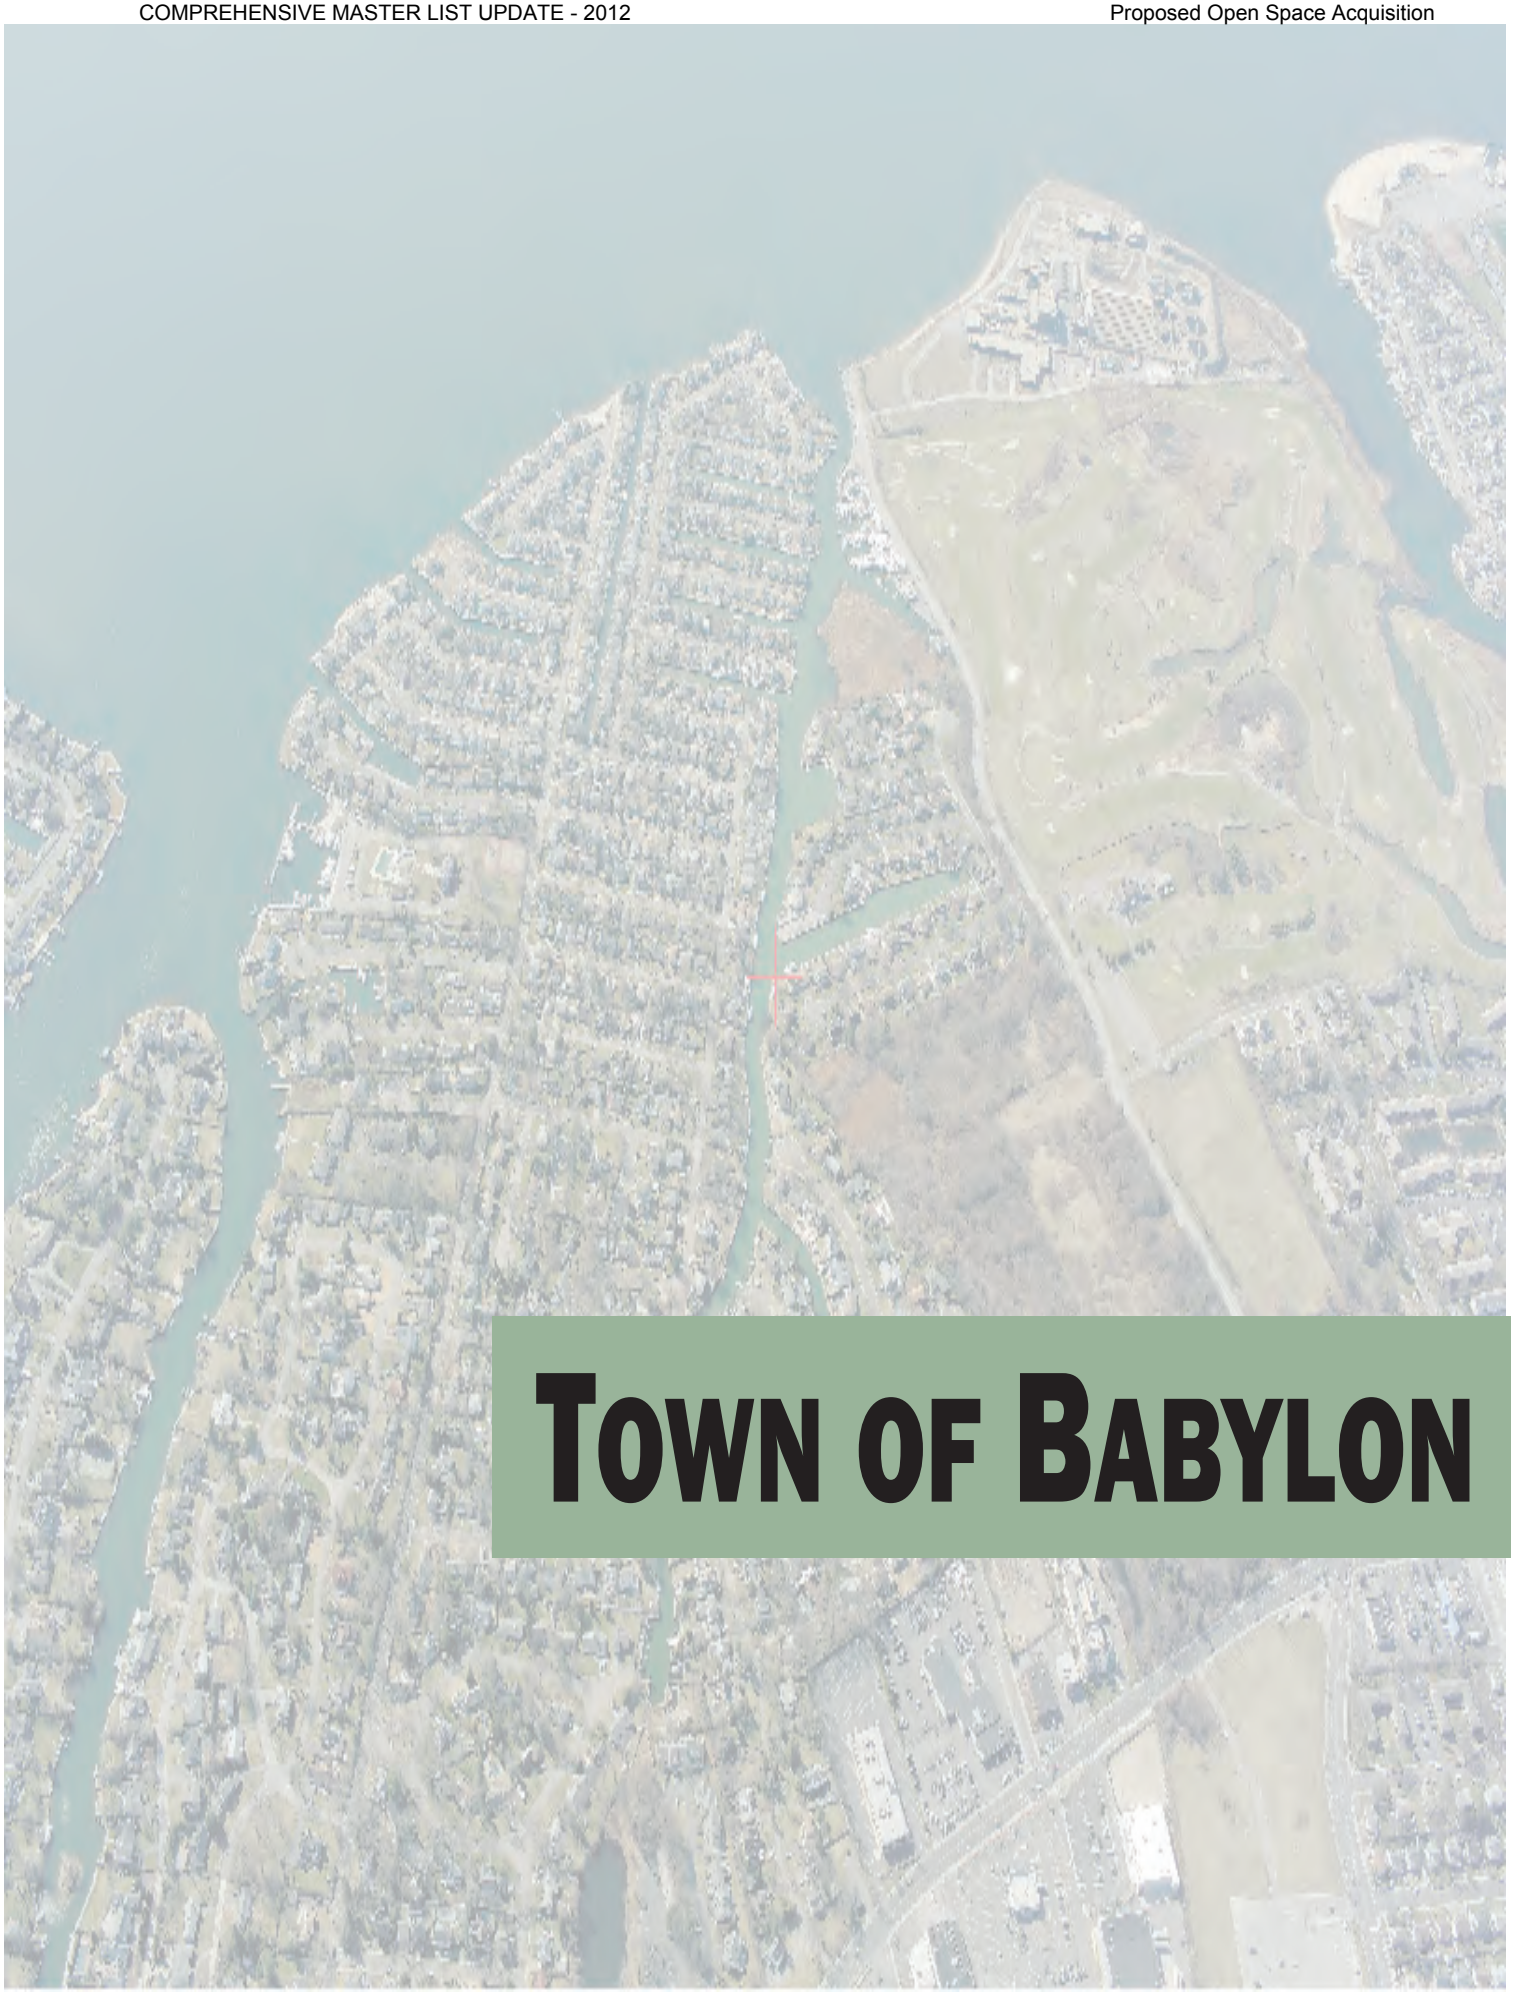

1986 Open Space Preservation, 1987 (Old) Drinking Water Protection, South Setauket Woods Conservation Area, Environmental Legacy Fund (Open Space category), etc. ☐

If YES, then go to the next page.

Name_____ Introductory Resolution No. _____

SUFFOLK COUNTY OPEN SPACE RATING SYSTEM FOR NATURAL ENVIRONMENTS

	Score	Subtotal
NATURAL RESOURCE CHARACTERISTICS		
A. WETLANDS AND BUFFER AREAS		
1. Site contains tidal or freshwater wetlands as identified by New York State Department of Environmental Conservation or local town/village approved maps. (> 50%=10pts.; between 50% and 25%=8pts.; less than 25%=5pts.)		
2. Site contains the buffer area of a tidal wetland (approx. 300 ft.) or freshwater wetland. (approx. 100 ft.) (5pts.)		
3. Site contains both tidal and freshwater wetlands as identified by New York State Department of Environmental Conservation or local town/village approved maps. (2pts.)		
4. Site is located within a drainageway with at least one of the following soil types: At, Bd, Ca, De, Mu, ScB, SdA, SdB, Su, Tm, Wa, Wd, We, Wh. (2pts.)		
B. GROUNDWATER RESOURCES		
1. Site is located within the Pine Barrens Core Area. (10pts.)		
2. Site is located within a Special Groundwater Protection Area (SGPA), but not within the Pine Barrens Core Area. (8pts.)		
3. Site is located within Hydrogeologic Zone I or Zone III (deep aquifer recharge area), but not within the Pine Barrens Core Area or a SGPA. (3pts.)		
C. NATURAL HABITAT		
1. Site contains endangered (10 pts.), threatened (10 pts.) and/or special concern (5 pts.) species pursuant to Federal/New York State listings as identified under ECL Section 11-0535; regulation 6NYCRR Part 182.5. (10pts.)		
2. Site contains a New York State Natural Heritage Program Element(s) with a Global rank of G1, G2 or G3 and/or a State rank of S1, S2 or S3. (5pts.)		
3. Site contains an endangered, threatened, exploitably vulnerable or rare New York State Protected Native Plant species as identified under ECL Section 9-1503; regulation 6 NYCRR Part 193.3. (4pts.)		
4. Habitat diversity – Site contains three or more habitat cover types (ie. pine barrens, mature oak forest, wetland, maritime shrubland, etc. (2pts.)		
PHYSICAL CHARACTERISTICS		
A. GEOLOGICAL LANDFORMS AND BOUNDARIES		
1. Site includes or is adjacent (approx. 300 ft.) to a waterbody such as an ocean/ bay/ sound/ pond/ lake/ river/ stream/ creek. (5pts.)		
2. Site contains a unique geological landform (ie. kettlehole, dune, bluff, escarpment, other) or is located within a major swale area that contributes direct runoff to surface waters. (3pts.)		
3. Site contains more than one waterbody, geologic landform as identified in No. 1 and 2 above. (2pts.)		
4. Site is located within the FIRMs 100-year floodplain (V Zone). (2pts.)		
5. Site is located within the FIRMs 100-year floodplain (A Zone). (1pt.)		
B. SIZE		
1. Over 25 acres **OR** Over 10 acres within a Census Designated Place of ≥ 1,000 persons per square mile. (8pts.)		
2. Between 10 and 25 acres **OR** Between 5-10 acres within a Census Designated Place of ≥ 1,000 persons per square mile. (6pts.)		
3. Between 5 and 10 acres **OR** Between 1-5 acres within a Census Designated Place of ≥ 1,000 persons per square mile. (3pts.)		
C. LOCATION		
1. Site is adjacent or near (approx 300 ft.) to other County Parkland. (7pts)		
2. Strategic parcel associated with an area earmarked by the Suffolk County Planning Department for future park acquisition or where significant County park/open space interests already exist. (4pts.)		
3. Site has been identified for environmental protection by an estuary program plan: Long Island Sound Study CCMP, Peconic Estuary Plan CCMP or the South Shore Estuary Reserve Plan CMP. (3pts.)		
4. Site is adjacent or near (approx. 300 ft.) to other protected parklands (ie. Federal, state, town, village or is located within a New York State designated Wild, Scenic and Recreational Rivers corridor). (2pts.)		
5. Site will provide public access to the shoreline (ie. ocean, bay, etc.). (2pts.)		
6. Site is located within or adjacent to a designated greenbelt or historic trail. (2pts)		
7. Site will provide special view from a high elevation, scenic roadway, major road corridor, waterfront, etc. (2pts.)		
8. Site is adjacent or near (approx. 300 ft.) to private open space. (1pt.)		
STEWARDSHIP MANAGEMENT AGREEMENT		
1. Inter-municipal management agreement with Federal, state, town and/or village. (5 pts.)		
2. Management agreement with non-profit environmental organization. (1 pt.)		
TOTAL SCORE (maximum = 100 points)
